JUN 11 1965 Co

## TO THE STOCKHOLDERS:

The continuing high level of general business activity and industrial growth in the area served by your railroad resulted in some further increase in freight traffic during the year 1964. The declining trend in the volume of passenger business continued. Gross revenue improved but substantial increases in rates of pay, extended vacations and other fringe benefits prevented us from translating the increase in available funds into net income.

Your company is continuing to meet the challenges of changing industrial patterns, requirements for special equipment of greater capacity and better service at lower rates while maintaining a sound and strong financial position in anticipation of still more far-reaching expansion in our immediate territory.

Incorporated in this report are a summary of operating data and statements of accounts at the end of the year 1964.

## EARNINGS

After fixed charges there was an operating deficit of 89 cents a share compared to \$1.35 a share in 1963. Although the annual effect of the wage and fringe benefit increases was dampened somewhat by a ruling which permitted the discontinuance of firemen on some locomotives, the net is an increase in expenses equivalent to \$4.08 a share of outstanding stock. Equipment rent payments also increased because of a revised schedule of rates on both railroad and private line cars.

In December retroactive wage and fringe benefit increases, the result of national settlements, converted what had been a net income for the first eleven months of the year into a deficit.

## DIVIDENDS

A strong cash position justified a continuance of dividends. Stockholders received a dividend of \$2.00 a share as of August 1, 1964, and \$2.00 a share as of December 5, 1964.

## OPERATING REVENUE

Operating revenues increased \$88,935.69, or 2.6%. Freight, express and some miscellaneous revenues increased but passenger and mail declined. These items will be discussed in more detail elsewhere in this report. The operating ratio increased only 0.9% to 89.70 in 1964 although wage and allied expenses increased sharply. Expenditures for maintenance of car equipment were continued at a somewhat higher level in order to offset, as far as reasonably possible, the increased rates paid others and to meet increased requirements for equipment loading on line.

## FREIGHT

Freight revenue increased \$98,872.77, or 3.7%. The number of tons handled increased 5.67% while the distance handled declined 2.58%. The average revenue for handling a ton one mile increased 0.70% which, like last year, slightly reverses the trend of previous years during which there has been a continuing downward revision of freight rates. This is accounted for by the gradual increase in the percentage of manufactured products handled which is in keeping with the trend of the area away from relying so extensively upon agriculture and toward a diversified economy with increased emphasis on industry.

Attention is again directed to the increase in tons handled per loaded car mile which exceeded last year by 3.38%. This results from improvements in design which enable freight cars to carry greater pay loads and from present rate policy allowing shippers lower rates when greater capacity equipment is loaded to full capacity. The greater percentage of gain in tons carried in each loaded car of 4.71% in relation to the increase in revenue of 3.38% also reflects the downward adjustment of freight rates.

On December 1, 1964, the Atlanta freight office, along with that of Georgia Railroad, was consolidated with the L. & N. and A.C.L. as a measure designed to expedite the movement of LCL traffic to and from the east and north in a new piggyback development. It is felt that, through consolidation of pickup and delivery services, station handling and expeditious daily movements in trailers, an improved service warranting extended use for small shipments may be developed.

Under continuing survey are all constructive methods for the improvement of service. Piggyback service is increasing and is being developed in any area where it may satisfactorily meet a need. Equipment of more suitable design is supplied and studies in this direction are a part of every day activity. Rates, routes and schedules information, along with sound constructive advice is readily available to shippers. There is constant emphasis upon a full transportation service for both present requirements and any needs of the future. These activities are of real value to present shippers and are promoting sound prospects for the future.

As the year ended a new service to handle a large volume of brick to a new distribution yard located on property owned by your company in the College Park industrial area was instituted. Brick will move from the manufacturing plant on pallets, loaded into high capacity cushion underframe box cars to avoid damage. All manual handling will be eliminated between the manufacturing plant and the construction job site.

### PASSENGER, ALLIED AND MISCELLANEOUS

Passenger revenue decreased 11.7% in 1964 over 1963, and the number of passenger miles decreased 10.36%. This is a continuation of the trend which has resulted in a decline of 49.6% in passenger revenue over the last eleven years. This has been caused by continuing improvement of paralleling highways and steadily increasing patronage of airline services. It remains significant to point out that improvements in competing services are aided by large expenditures of public funds. The amount of such expenditures is increasing and self-supporting railroads are having to contribute to them as a part of the tax burden.

Mail revenue decreased 2.4% in 1964 as changes in mail movements continue their shift to the highways. When possible we have undertaken to lessen the effect of such diversions by providing contract truck service to supplement trains.

We are glad to report an increase of 8.3% in express revenue but there has been no reduction in the paralleling highway service. Mail and express constituted 61.7% of the total income from passenger train operations. This is an increase from 58.5% in 1963 and serves to accentuate the decrease in passenger revenue.

During 1964 we were successful in reducing some elements of passenger train costs but this has brought no end to the burden of continuing revenue declines.

Miscellaneous income items increased to some extent as a result of greater demurrage assessments.

### OPERATING EXPENSES

Expenses of operations continued under close control in 1964. The accompanying graph shows the relationship maintained over a period of ten years between revenues and expenses. Others show the degree to which it has been possible to increase efficiency in the face of increasing unit costs.

RELATIONSHIP BETWEEN OPERATING  
REVENUES AND EXPENSES BY YEARS  
1955 TO 1964

MILLIONS OF DOLLARS

Atlanta and West Point Rail Road Company  
The Western Railway of Alabama  
Georgia Railroad

**CHARTS REPRESENT TOTALS OF JOINTLY OPERATED LINES**

AVERAGE NUMBER OF EMPLOYEES

1955-1964

AVERAGE COMPENSATION PER EMPLOYEE

1955-1964

In 1964 we installed 3.19 miles of 115-lb. welded rail in main line tracks and released 100-lb. rail. Of 103.34 miles of main track we now have 45.99 miles laid with 115-lb. rail. Our mechanized program for cross tie replacement and track resurfacing, reballasting and right of way improvement continued.

Strong programs of equipment maintenance continued. Emphasis was placed on conditioning freight cars to supply the need for on-line loadings, especially increased pulpwood loading, and as an offset to higher car rent rates.

The installation of radio communications in yard, train and roadway operations continued with increasing profitable results.

In the year data processing equipment in our accounting department was upgraded to meet the requirements of multilevel per diem rate accounting. That replaced was one of the first installations in the country for car accounting. Equipment for other operations was also upgraded to meet new requirements and provide for expansion.

#### **RAILWAY TAX ACCRUALS**

Railway tax accruals increased \$5,583. The principal cause was an increase in railroad retirement tax because the base wage subjected to tax was increased from \$400 a month to \$450 a month. Ad valorem taxes decreased for the tenth consecutive year.

#### **EQUIPMENT RENTS**

Measures previously reported continued to register an improvement in equipment rents of 18.5% in 1964

although rental rates for cars of other railroads and private car lines moved sharply upward during the year. These measures are still in effect.

Further aid will come from new equipment on order and expected to be delivered early in the new year.

#### **WAGE AND LABOR NEGOTIATIONS**

The various legal technicalities surrounding the Award of Arbitration Board No. 282 of November, 1963, were cleared away by the Supreme Court of the United States on April 27. On May 7, the A&WP-WofA began operation of diesel locomotives in road freight and yard service without firemen. The elimination of firemen has been progressed as rapidly as possible, and by the end of the year approximately 50 per cent of our assignments in road freight and yard service were being operated without firemen.

Negotiations were held under the provisions of an Arbitration Award looking toward the effectuation of agreements for reduction in the size of crews, but the negotiations were not completed by the end of the year.

The remaining secondary issues of the 1959 operating rules case were settled by agreement effective June 25, 1964. The carriers won favorable rules on manning roadway machines and switching at points where switch engines are located. The employees were granted seven paid holidays for certain groups, expenses away from home terminals, and increases to adjust some imbalances in pay for yard service employees.

Agreements on wage adjustments and fringe benefits were effected with all crafts by the end of the year with

the exception of electricians, machinists, sheet metal workers, patrolmen and train porters. Generally, all agreements fixed wages and fringe benefits for operating employees until the middle of 1966 and for the non-operating employees until January 1, 1967.

### GENERAL EXPENDITURES

From 1946 through 1964, inclusive, very substantial additions and betterments to road and equipment have occurred. This is especially true of equipment. Between these dates total expenditures for this purpose amounted to \$6,036,406, which is 80.5% of the total investment at the close of 1945. At the end of 1964 all debt for such purposes amounted to \$724,291, a reduction in the year of \$145,422.

Expenditures for additions to road and equipment in the year 1964 were relatively small, being confined principally to an increase in weight of 3.19 miles of rail and some industrial tracks.

For industrial development purposes we acquired 140 acres of land at Fairburn early in 1964 and last November we contracted for the purchase of 136 additional acres which has since been accomplished. These properties are favorably situated adjacent to our right of way, and near a projected interstate highway (I-85).

Late in the year orders were placed for delivery early in 1965 of 7 cushion underframe box cars and 50 new box cars. These equipment additions will cost approximately \$770,398 and the purchase will be financed under conditional sales agreements through banks in our area.

### INDUSTRIAL DEVELOPMENT

A keen interest in industrial locations, particularly in the Atlanta area, developed as anticipated and is continuing. Economy Auto Stores opened a large new facility for serving the Southeast in the new South Perimeter Industrial Park mentioned in our report last year. Further development is expected in this Park. Phillips Petroleum completed construction and began operations in their new plastics plant at Newnan.

Private investors have acquired another area adjacent to our College Park properties, to be developed for industrial purposes, and will be known as the Airport Perimeter Park.

Seven new industries located on your line during the year and one expanded its facilities.

Among the new industries is Merry Bros., brick manufacturers of Augusta, who leased property in our College Park development and installed a distribution facility to serve the large metropolitan Atlanta area.

Because of the great interest being shown in the south Fulton County territory, as heretofore stated your company has acquired additional strategically located land near Fairburn for industrial development.

### STAFF CHANGES

During the year the following staff members retired from active service: J. B. Pace, Purchasing Agent, January 1; F. W. Graf, Principal Assistant Engineer, January 15; B. F. Bruton, District Passenger Agent, August 1; O. M. Rebb, Passenger Agent, September 1; E. P. Barbre, Manager of Industrial Development, December 31.

It is with deep regret we announce the death during the year of the following who made contributions over a number of years to the success of the railroad: Guy S. Edmondson, retired Freight Claim Agent, February 22, 1964; George E. Parker, General Agent at Montgomery, July 14, 1964.

### SAFETY

Your company, jointly with The Western Railway of Alabama, was again the recipient of the National Safety Council's award for the best safety record among employees, Group "E", for the year 1963. We are also pleased to report that your company received the National Safety Council's "Award of Merit", based on the improvement made in its accident ratio in 1963 compared with the previous year.

### GENERAL

We enter the year 1965 with an improving economy, a strong financial position and an excellent situation in a rapidly growing area. With the skills of a good organization having an aggressive and forward looking attitude toward current and prospective problems, we face it with courage and confidence.

There is some indication that we may anticipate a more constructive governmental approach to rail questions, and general prospects for the area you serve, as well as the entire Southeast, are bright. We, therefore, believe the future looks good.

Grateful thanks are expressed to our stockholders and patrons for their loyal support and to our officers and employees for their faithful and capable efforts.

By order of the Board of Directors,

J. CLYDE MIXON  
President and General Manager

## MILEAGE OPERATED

Miles of road operated at December 31, 1964:

## MAIN LINE:

Atlanta to West Point .....	85.72		
Less—Leased to Atlanta Terminal Company .....	0.10	85.62	
Hulsey Junction to Oakland City .....		5.16	90.78

## TRACKAGE RIGHTS:

Atlanta Terminal Company, Atlanta .....	0.46

ACCOUNTANTS

ATLANTA

ACCOUNTANTS' OPINION

Atlanta and West Point Rail Road Company:

We have examined the balance sheet of Atlanta and West Point Rail Road Company as of December 31, 1964 and the related statements of income and of retained income for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Company maintains its accounts in conformity with the Uniform System of Accounts for Railroad Companies prescribed by the Interstate Commerce Commission and the accompanying financial statements have been prepared in accordance therewith. As explained in note 1, the provisions of such system vary in certain respects from generally accepted accounting principles.

In our opinion, with the exception referred to in the preceding paragraph, the accompanying financial statements present fairly the financial position of the Company at December 31, 1964 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## STATEMENT OF RETAINED INCOME

## CREDITS

Retained income, January 1, 1964.....	\$ 4,109,759.92
---------------------------------------	-----------------

## DEBITS

Net loss for the year.....	\$ 22,047.64		
Dividends to shareholders:			
\$2 a share paid August 1, 1964.....	\$ 49,272.00		
\$2 a share paid December 5, 1964.....	49,272.00	98,544.00	120,591.64
Retained income, December 31, 1964.....			\$ 3,989,168.28

## NOTES TO FINANCIAL STATEMENTS

1. The provisions of the Uniform System of Accounts for Railroad Companies prescribed by the Interstate Commerce Commission vary from generally accepted accounting principles in that, under the Uniform System, no accounting recognition is given to the possible effect on income taxes in future years of current reductions in income taxes resulting from the deductions for amortization and depreciation of property for income tax purposes in excess of the amounts recorded in the accounts. The cumulative amount of such reductions in income taxes included in retained income at December 31, 1964 was \$481,000. This property became fully amortized for income tax purposes in 1961. In 1964 income taxes would have been approximately \$9,000 except for an operating loss carry-over resulting from amortization for income tax purposes in excess of recorded depreciation. In 1963 there was no effect on income taxes because there was no taxable income for that year.
2. The Company, together with Southern Railway Company and Central of Georgia Railway Company, jointly and severally guarantees unconditionally the payment of principal and interest of the first mortgage series A, 4% bonds of Atlanta Terminal Company due August 1, 1969, of which \$443,000 were outstanding at December 31, 1964.

## CLASSIFICATION OF FREIGHT TRAFFIC

YEAR - 1964

COMMODITY	No. of TONS 2,000 lbs.	Pct. to TOTAL TONS
RUBBER AND MISCELLANEOUS PLASTIC PRODUCTS	6,703	0.25
LEATHER AND LEATHER PRODUCTS	357	0.01
STONE, CLAY AND GLASS PRODUCTS		
Abrasives, Asbestos, etc.	40,955	1.54
Brick	41,587	1.56
Cement	103,969	3.91
Others	42,526	1.60
Total	229,037	8.61
PRIMARY METAL PRODUCTS	82,180	3.09
FABRICATED METAL PRODUCTS	32,340	1.22
MACHINERY, EXCEPT ELECTRICAL	10,384	0.39
ELECTRICAL MACHINERY, EQUIPMENT, ETC.	8,614	0.32
TRANSPORTATION EQUIPMENT	11,010	0.41
MISCELLANEOUS PRODUCTS OF MANUFACTURING	2,518	0.09
WASTE AND SCRAP MATERIALS		
Iron and Steel Scrap	19,047	0.72
Textile Waste, Scrap and Sweepings	34,461	1.30
Others	19,612	0.73
Total	73,120	2.75
MISCELLANEOUS FREIGHT SHIPMENTS	4,992	0.19
CONTAINERS, EMPTY	885	0.03
FREIGHT FORWARDER TRAFFIC	142	0.01
SHIPPER ASSOCIATION OR SIMILAR TRAFFIC	965	0.04
MISCELLANEOUS MIXED SHIPMENTS, EXCEPT FORWARDER AND SHIPPER ASSOCIATION	2,742	0.10
GRAND TOTAL CARLOAD TRAFFIC	2,655,983	99.86
SMALL PACKAGED FREIGHT SHIPMENTS	3,617	0.14
GRAND TOTAL CARLOAD AND LCL TRAFFIC—1964	2,659,600	100.00
*GRAND TOTAL CARLOAD AND LCL TRAFFIC—1963	2,516,671	100.00

\*Commodities reclassified by I. C. C. in 1934 and groupings are not comparable with those of prior years.

## FREIGHT AND PASSENGER STATISTICS

## FREIGHT TRAFFIC

	1964	1963	Increase or Decrease	
			Amount	Percent
1 Number of tons carried	2,659,491	2,516,671		
2 Number of tons carried one mile	190,738,735	185,287,109	142,820	5.67
3 Number of tons per mile of road (Average)	29,406	27,827	5,451,626	2.94
4 Number of tons carried one mile per mile of road	2,109,009	2,048,730	1,579	5.67
5 Number of tons in each train (Average)	988.66	946.83	60,279	2.94
6 Number of tons in each loaded car (Average)	29.14	27.83	41.83	4.42
7 Average distance one ton carried (Miles)	71.72	73.62	1.31	4.71
8 Revenue per ton per mile	\$ 0.01444	\$ 0.01434	—1.90	—2.58
9 Revenue per mile of road	30,463.76	29,370.52	0.00010	0.70
10 Revenue per freight train mile	19.07	18.49	1,093.24	3.72
11 Revenue per freight car mile—Loads	0.56191	0.54353	0.58	3.14
12 Revenue per freight car mile—Total	0.35743	0.35112	0.01838	3.38
13 Revenue per ton	1.04	1.06	0.00631	1.80
			—0.02	—1.89

## PASSENGER TRAFFIC

1 Number of passengers carried	80,112	88,721		
2 Number of passengers carried one mile	6,710,957	7,486,783	—8,609	—9.70
3 Number of passengers per mile of road (Average)	931	1,031	—775,826	—10.36
4 Number of pass. carried one mile per mile of road	77,962	86,975	—100	—9.70
5 Number of passengers in each train (Average)	55	60	—9,013	—10.36
6 Number of passengers in each car (Average)	14	13	—5	—8.33
7 Average distance each passenger (Miles)	83.77	84.39	1	7.69
